About Us

The Ice Cream Club®, Inc. was formed and began production in 1982. The company produces and distributes from its offices and 18,000 sq. ft. plant in Boynton Beach, Florida. Current areas of direct distribution are Florida, South Carolina, North Carolina, Alabama, Texas, Tennessee, Kentucky, Georgia, Louisiana and Virginia. The secret to our success is the unbeatable taste of our ice cream. We have held on to the old-fashioned way of producing it. This takes longer and is less automated, but the taste of our ice cream definitely makes it worth it!

Retail Dipping Stores

If your store needs identity and you want to have a "franchise look" **without** the fees or royalties, consider using the "Ice Cream Club®" as your store name. We are not a franchise, so licensing is not a requirement to purchase our products. It does offer certain benefits, however. Additionally, stores with their own identity may want to feature The Ice Cream Club® products but not change their name.

There are many benefits to this as well, and still **NO fees involved.**

Our Factory

Dairy Laboratory on premises for quality control and product development. We are developing new flavors on a regular basis.
